

Product Datasheet

Phostensin Mouse mAb

Catalog No: AB3250

Reactivity: Human

Isotype: Mouse IgG1

Applications: WB

www.abways.com

Information

UniProt ID: Q6NYC8

All Names: Protein phosphatase 1 F actin cytoskeleton targeting subunit.

Form: Liquid

Storage instructions: Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.

Storage buffer: pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Purity: Affinity-chromatography

Immunogen: A synthesized peptide

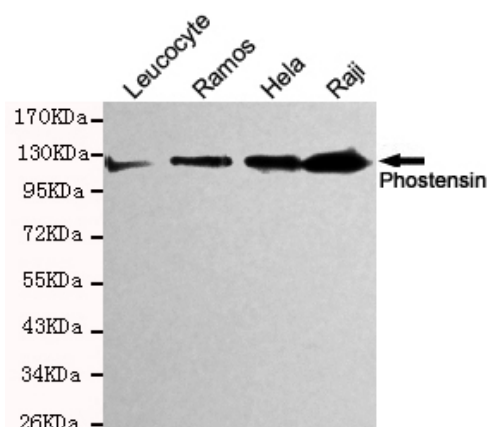

Molecular Wt.: 120KDa

Application

WB 1:200

Background

May target protein phosphatase 1 to F-actin cytoskeleton.

Western blot detection of Phostensin in HeLa, Raji, Ramos and Leucocyte cell lysates and using Phostensin mouse mAb (1:200 diluted). Predicted band size: 120KDa. Observed band size: 120KDa.

For Research Use Only. Not For Use In Diagnostic Procedures.
