

Product Datasheet

Cytochrome c Antibody

Catalog No: CY1030

Reactivity: Human, Mouse, Rat

Isotype: Rabbit IgG

Applications: WB, IHC

www.abways.com

Information

UniProt ID: P99999

All Names: CYC; CYCS; Cytochrome c; cytochrome c, somatic; HCS; THC4

Form: Liquid

Storage instructions: Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.

Storage buffer: pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Purity: Affinity-chromatography

Immunogen: A synthesized peptide

Molecular Wt.: 15kDa

Application

WB 1:500~1:3000

IHC 1:50~1:200

Background

CYCS Electron carrier protein. The oxidized form of the cytochrome c heme group can accept an electron from the heme group of the cytochrome c1 subunit of cytochrome reductase. Cytochrome c then transfers this electron to the cytochrome oxidase complex, t

Western blot analysis on COS7 cell lysate using
Cytochrome c Antibody
