

Product Datasheet

MEN1 Antibody

Catalog No: CY2740

Reactivity: Human, Mouse, Rat

Isotype: Rabbit IgG

Applications: WB, IHC

www.abways.com

Information

UniProt ID: O00255

All Names: MEAI; Menin; SCG2; Wermer syndrome; Zollinger-Ellison syndrome

Form: Liquid

Storage instructions: Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.

Storage buffer: pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Purity: Affinity-chromatography

Immunogen: A synthesized peptide

Molecular Wt.: 68 kDa

Application

WB 1:500-1:2000

IHC 1:50-1:200

Background

Essential component of a MLL/SET1 histone methyltransferase (HMT) complex, a complex that specifically methylates 'Lys-4' of histone H3 (H3K4). Functions as a transcriptional regulator. Binds to the TERT promoter and represses telomerase expression.

Western blot analysis of extracts from HuvEc cells, using MEN1 antibody.

For Research Use Only. Not For Use In Diagnostic Procedures.
