

Product Datasheet

Claudin 4 Antibody

Catalog No: CY2908

Reactivity: Human, Mouse, Rat

Isotype: Rabbit IgG

Applications: WB, IHC

www.abways.com

Information

UniProt ID: O14493

All Names: CLD4, CLDN4, CPE- receptor, CPE-R, CPER, CPETR1, Clostridium perfringens enterotoxin receptor, WBSCR8, Williams-Beuren syndrome chromosome region 8 protein

Form: Liquid

Storage instructions: Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.

Storage buffer: pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Purity: Affinity-chromatography

Immunogen: A synthesized peptide

Molecular Wt.: 22 kDa

Application

WB 1:500-1:2000

IHC 1:50-1:200

Background

Note=CLDN4 is located in the Williams-Beuren syndrome (WBS) critical region. WBS results from a hemizygous deletion of several genes on chromosome 7q11.23, thought to arise as a consequence of unequal crossing over between highly homologous low-copy repeats.

Western blot analysis of Claudin 4 expression in HeLa cells

For Research Use Only. Not For Use In Diagnostic Procedures.
