

Product Datasheet

MEF2C Antibody

Catalog No: CY2950

Reactivity: Human, Mouse

Isotype: Rabbit IgG

Applications: WB

www.abways.com

Information

UniProt ID: Q06413

All Names: MEF2C antibody

MEF2C_HUMAN antibody

Myocyte enhancer factor 2C antibody

Myocyte specific enhancer factor 2C antibody

Myocyte-specific enhancer factor 2C antibody

Form: Liquid

Storage instructions: Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.

Storage buffer: pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Purity: Affinity-chromatography

Immunogen: A synthesized peptide

Molecular Wt.: 51kDa

Application

WB 1:500-1:2000

Background

Transcription activator which binds specifically to the MEF2 element present in the regulatory regions of many muscle-specific genes. Controls cardiac morphogenesis and myogenesis, and is also involved in vascular development.

Western blot analysis of extracts from 3T3 cells, treated with starved (24hours), using MEF2C antibody.

For Research Use Only. Not For Use In Diagnostic Procedures.
