

Product Datasheet

RAIDD Antibody

Catalog No: CY5298

Reactivity: Human

Isotype: Rabbit IgG

Applications: WB IHC ICC IP FC

www.abways.com

Information

UniProt ID: P78560

All Names: CRADD;MGC9163;RAIDD;Death adaptor molecule RAIDD;Death domain containing protein CRADD;

Form: Liquid

Storage instructions: Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.

Storage buffer: pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Purity: Affinity-chromatography

Immunogen: A synthesized peptide

Molecular Wt.: 23 kDa

Application

WB: 1:1000~1:2000

IHC: 1:50~1:200

ICC: 1:50~1:200

Background

The receptor interacting protein RIP is a death domain-containing serine/threonine kinase which associates with FAS or the TNF-R1 binding protein TRADD. RAIDD (RIP-associated ICH-1/Ced-3 homologous protein with a death domain) has been identified as a RIP binding protein that also associates with members of the caspase family, providing a link between activation of the TNF-Rs and the triggering of the cysteine protease cascade. The amino-terminal domain of RAIDD shares significant homology with the prodomain of ICH-1 and mediates the binding of RAIDD to this cysteine protease.

Western blot analysis of HeLa cell lysate using RAIDD antibody.

For Research Use Only. Not For Use In Diagnostic Procedures.
