

Product Datasheet

Phospho-STAT5A (Tyr694) Antibody

Catalog No: CY6505

Reactivity: Human, Mouse, Rat

Isotype: Rabbit IgG

Applications: WB, IHC

www.abways.com

Information

UniProt ID: P42229/P51692

All Names: Signal transducer and activator of transcription 5B; STA5B; STAT5; STAT5B; transcription factor STAT5B

Form: Liquid

Storage instructions: Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.

Storage buffer: pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Purity: Affinity-chromatography

Immunogen: A synthesized peptide

Molecular Wt.: 90kDa

Application

WB 1:500-1:2000

IHC 1:50-1:200

Background

STAT5B transcription factor of the STAT family. Phosphorylated and activated by receptor-associated kinases triggered by cytokines including IL2, IL3, GM-CSF, and various growth hormones. It has been shown to be involved in diverse biological processes, s

Western blot analysis of extracts from HeLa cells EGF treated, using STAT5A (phospho-Tyr694) antibody.

For Research Use Only. Not For Use In Diagnostic Procedures.
