

Product Datasheet

FAP1 Antibody

Catalog No: CY6853

Reactivity: Human

Isotype: Rabbit IgG

Applications: WB IHC

www.abways.com

Information

UniProt ID: Q12884

All Names: 170 kDa melanoma membrane bound gelatinase; DPPIV; FAP; FAPA; Fibroblast activation protein alpha; Integral membrane serine protease; Seprase;

Form: Liquid

Storage instructions: Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.

Storage buffer: pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Purity: Affinity-chromatography

Immunogen: A synthesized peptide

Molecular Wt.: 95 kDa

Application

WB 1:500~1:2000

IHC 1:50~1:200

Background

In association with DPP4 is involved in the pericellular proteolysis of the extracellular matrix (ECM), the migration and invasion of endothelial cells into the ECM. May have a role in tissue remodeling during development and wound healing, and may contribute to invasiveness in malignant cancers.

Western blot analysis of FAP1 expression in U-87 MG cell lysate.

For Research Use Only. Not For Use In Diagnostic Procedures.
