

Product Datasheet

FHIT Antibody

Catalog No: CY8054

Reactivity: Human Rat

Isotype: Rabbit IgG

Applications: WB

www.abways.com

Information

UniProt ID: P49789

All Names: AP3A hydrolase; AP3Aase; Dinucleosidetriphosphatase; FRA3B;

Form: Liquid

Storage instructions: Store at +4° C short term. Store at -20° C long term. Avoid freeze / thaw cycle.

Storage buffer: pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Purity: Affinity-chromatography

Immunogen: A synthesized peptide

Molecular Wt.: 17kDa

Application

WB 1:500~1:2000

Background

FHIT (fragile histidine triad) cleaves adenosine 5' PPP 5' A to yield AMP and ADP. Alterations and deletions of the FHIT gene are strongly linked to the genesis and establishment of human tumors of the lung, cervix, breast, colon, stomach and pancreas. In normal cells, FHIT may act as a tumor suppressor. FHIT physically associates with ubiquitin conjugating enzyme 9.

Western blot analysis of FHIT expression in Rat kidney lysate.

For Research Use Only. Not For Use In Diagnostic Procedures.
